WHAT'S YOUR BIG IDEA?

You are familiar with the challenges of being an entrepreneur: the long days and nights spent building your business from the ground up and the sacrifices to make your dream become reality.

A solid legal foundation will fuel your development, growth and expansion plans. We put mechanisms in place to minimize risk.

Let us incorporate your business, protect your intellectual property and draft a shareholders agreement so that you can get organized, raise money and gain credibility to expand your business.

Our Startup Suites help you turn your big idea into something more.

Top reasons why startups don't invest in their legal foundation

MYTH: Legal services are too expensive

FACT: We know you are bootstrapping your business. Capped and deferred fees are available for qualifying startups. Get the legal work you need and stay within budget.

MYTH: It's too early to think about legal protection

FACT: Not having the right business structure, properly drafted contracts and appropriate legal protections in place from the start can end up costing you your ideas, your assets, your relationships and even your business.

MYTH: I'm too busy to figure out what I need

FACT: That's where we come in. We have worked with thousands of companies at all stages, from startup and growth to maturity and exit. We take care of the details for you.

MYTH: The legal details are not a priority right now

FACT: You will need a proper legal structure for raising capital, gaining credibility and selling your business (if you ever want to).
