- (1) Where there is an increase in the amount of non-residential gross floor area, the development charges payable will be calculated by multiplying the amount of gross floor area so increased by the development charge rate then in effect; and
- (2) Where there is a decrease in the amount of non-residential gross floor area, the development charges payable will be reduced by multiplying the amount of gross floor area so reduced by the development charge rate that was in effect and collected upon issuance of the initial building permit for the development,

provided that in no case shall any refund be provided in an amount greater than the amount of development charges paid upon issuance of such initial building permit;

K. Where a development charge has been paid in respect of an application for a building permit prior to the date on which the development charge is payable and the building permit, for whatever reason, is not issued until a later date, such earlier payment does not constitute full payment of all development charges payable, and on the date of actual building permit issuance the amount of development charges payable will be calculated to reflect any change in development charge rates since the date of the original payment, and the difference in development charges payable, if any, shall be paid prior to issuance of the building permit; and

L. Where an owner makes a subsequent building permit application for a building or structure that is built, in whole or in part, above, on top of or attached to another existing building or structure, including a podium or parking structure whether above or below grade, development charges are due and payable upon issuance of the building permit for such subsequent building or structure, and not at the time of issuance of the building permit for the underlying or supporting existing building or structure.

§ 415-9. Payment by services.

A. Despite the provisions of this article, Council may by prior written agreement permit an owner to provide services in lieu of the payment for all or any portion of a development charge. Where a prior written

agreement has been entered into, the City shall give the owner who performed the work a credit towards the development charge in accordance with the agreement and subject to the requirements of the Act, but the credit shall not exceed the total amount of the development charge payable with respect to that service and calculated in accordance with the charge by service set out in Schedules A or B at the end of this chapter; and

- B. Nothing in this article prevents Council from requiring, as a condition of any approval given under the *Planning Act*, that the owner, at the owner's expense, install such local services and local connections as Council may require and are related to the development.

§ 415-10. Front ending agreements.

Council may enter into front ending agreements with an owner or owners of land in accordance with section 44 of the Act.

§ 415-11. Indexing.

The development charges set out in Schedules A and B at the end of this chapter shall be adjusted by the City without amendment to this article on November 1, 2023, in accordance with the most recent change in the Statistics Canada Quarterly Construction Price Statistics, for the preceding period commencing on July 1, 2022;
- B. From then on, the development charges set out in Schedules A and B shall be adjusted by the City without amendment to this article on November 1 of each subsequent year, in accordance with the most recent annual change in the Statistics Canada Quarterly Construction Price Index; and
- C. For greater certainty, the Non-Residential Building Construction Price Index (Toronto) shall be used.

§ 415-12. Phasing in of development charges.

The phasing in of the development charge calculated, payable and collected under this article shall be as shown on Schedules _____ at the end of this chapter.

§ 415-13. Term of article.

This article shall continue in full force and effect for a term of five years from the date on which it comes into force, unless repealed on an earlier date.

§ 415-14. Refunds.

- A. Where a development charge has been paid on the issuance of a building permit and the building permit is subsequently cancelled or revoked, for the purposes of this article the building permit shall be deemed never to have been issued, and the amount of the development charges paid shall be refunded to the payor without interest; and
- B. Where a development charge has been paid on the issuance of a building permit, and it is subsequently determined by the City that there was an error in the calculation of the amount of such payment such that there was an overpayment of development charges, the Chief Financial Officer, in consultation with the City Solicitor, is authorized to refund to the payor the amount of such overpayment without interest, such refund to be paid from the applicable development charge reserve fund or funds.

§ 415-14.1. Additional development charges.

Additional development charges may be imposed under other by-laws.

- B. Chapter 415 is also amended by deleting Schedules A-1 to A-4, B and C to Chapter 415, Article I at the end of the chapter and substituting Schedules _____ at the end of this by-law.

2. Repeal and in force date.
