# Capital Pool Company/Reverse Takeover

The Aird & Berlis Capital Pool Company/Reverse Takeover Group has a wealth of knowledge and experience in assisting clients with their qualifying transactions onto the TSX Venture Exchange (TSXV) or the Toronto Stock Exchange through the TSXV Capital Pool Company (CPC) program or their reverse takeovers onto the Canadian Securities Exchange. Aird & Berlis represents clients in all aspects of the transactions including the IPO stage of a CPC, the qualifying transaction or RTO, the concurrent financing and continuing on as corporate counsel for the resulting issuer following the completion of the transaction.

We are recognized as a leader in the CPC/RTO realm and earned a favourable reputation for providing experienced, thoughtful and efficient legal services. Members of our CPC/RTO Group and the broader Aird & Berlis Capital Markets Group often act as directors and/or officers of the CPCs and the resulting issuers.

We take pride in the fact that our clients have successfully completed a significant number of Qualifying Transactions and RTOs, and have become resulting issuers in a diverse number of industries, including mining, technology, cannabis and agriculture across the globe (including North America, South America, Europe and several countries in Africa).

Attached is a list of representative matters in respect of which we have provided legal services acting on behalf of the issuer, the target company and/or the agent.
